

WEB DEVELOPMENT

Practicum - summary exercise

Exercise guidelines

📁 Folder structure

For this exercise, **create a new folder called summary-exercise** in your web development folder. Only put the files necessary to complete the exercise in here.

DO NOT add any source materials in this folder (screenshots, pdf files, ...)

📅 Submission deadline

This exercise does not need to be submitted

Plan of action

Recreate the given design in HTML and CSS according to the given source material

Tips and tricks:

1. All **text transformations** are applied through CSS
2. Think about **where to use flexbox** and **where not**. Content matters!
3. The content for quality and craftsmanship is **horizontally centered without having any width applied to the container**
The images and the content both have a width of **31.25rem**
4. The menus are **horizontally and vertically centered without any width being specified for the container**.
The menus themselves have a width of **30%**
5. The content in the footer is aligned as such that the **space around** them is **automatically determined** depending on the window size.
6. **None** of the elements positioned with flex have any special grow or shrink properties applied to it
7. The items in "follow us" are **links** to a yet unknown page. When clicking the email link however, make sure the standard email programme launches, sending an email to the address **info@ristorante-ratatouille.it** with **subject "Booking"**
8. The **shadows** are applied via CSS. Consult the colour scheme for the exact values
9. The images in the footer have the following **size**:

1. Facebook: 0.5rem (x and y)
2. Twitter: 0.75rem (x and y)
3. Email: 0.75rem (x and y)

Challenges:

You can achieve a favourable result with **4 IDs and 4 different classes**

Estimated completion time:

- Good: 2,5 hours or less
- As expected: 2,5 - 4,5 hours
- You will need more practice (are not prepared for the exam): over 4,5 hours

REMEMBER TO VALIDATE

Font and colour scheme:

- Colour body text: #5f5352
- Colour links: #54b785
- Colour gold: #d0ce13
- Font body text: Garamond, Cambria (fallback), 'Times New Roman' (2nd fallback), Times (3rd fallback)
- Font size body text: 1rem
- Font size 'Ristorante Ratatouille': 6rem
- Font size 'the best home-made italian dishes in town': 1.4em
- Font size 'our beliefs' and similar: 2.2rem
- Space between the letters 'our beliefs' and others: 0.3rem
- Line height body text: 130%
- Font size links in navigation: 1.2rem
- Space between the letters in navigation links: 0.2rem
- Font size "week menu" and others: 2rem
- Font size "starter" and others: 1.8rem
- Font size menu: 1rem
- Font size footer titles: 1.2rem
- Footer titles space between the letters: 0.2rem
- Line height footer elements(not titles): 140% and 146%
- Shadow below images: box-shadow: 0.375rem 0.5rem 1.25rem rgba(51,53,55,0.17);
- Shadow below header: 0.375rem 0.125rem 2.5rem rgba(51,53,55,0.4);

All unspecified measurements should be determined by approximation
