WEB DEVELOPMENT
Practicum - Week 3.2

Exercise guidelines

📁 Folder structure

For this exercise, **create a new folder called week 3.2**. in your web development folder (or work in that one if already present). Only put the files necessary to complete the exercise in here.

DO NOT add any source materials in this folder (screenshots, pdf files, ...)

🔖 Submission deadline

The deadline for this exercise is **Sunday, October 10th, 23:59.**

🔖 Submission rules

Submission rules are listed in the week 1.1 briefing

Setting up basic structure, convert text to HTML, apply CSS

Follow the steps as you have in the other practicum sessions to achieve this. The focus of this exercise is box model, so take care in switching between display modes.

Tips and tricks:

This design has a fine eye for detail. Make sure you respect the correct values for margins, paddings and borders.

1. Mind elements' **line height**. Many have been modified, most notably the texts people post have a line height of 140%.
2. This exercise will require you to **swap display modus often**. Consider your choice wisely
3. **Be careful not to default to habits.** Be critical about this design and about the structure and semantics. Is a section applicable in this case? Maybe the articles are more extensive here than in previous examples?

4. The following elements are **links**: the person's name, like, comment, share, x people like this, view x more comments, people's names in the comments, like/unlike
5. The images have **not** been supplied on retina format
6. Try to **derive** missing measurements from the source material
7. You will be seriously tested as to **your knowledge of CSS selectors** in this exercise
8. The **background images** are **1rem** in size (both dimensions). One background image is reused, reduce its size to 0.8rem to accommodate for the smaller font. Play with the line height of the element to get the vertical alignment right. Suggestions: 170% and 130%

Challenges:

- Clean HTML is good HTML. Try using as few classes and IDs as possible in every exercise. Only add them when it makes sense!
  This exercise can be completed without IDs and with 3 different classes

REMEMBER TO VALIDATE!

Used colours / fonts:

- Background colour page: #e9eaed
- Background colour comment blocks: #f6f7f8
- body text: kleur #141823, Font body text: Helvetica, Arial (fallback), font size: 1rem
- Colour links and header: #3b5998
- Light grey text: #9197a3
- Colour lines: #dfe0e4 and #e1e2e3
- Names below profile picture: 0.312rem space before next piece of text
- Dates: 0.8rem, 0.937rem space below
- Blocks: width 27.5rem, centrally aligned to the screen, 0.625rem space between, 1.5rem space inside all sides except bottom
- Images: 0.312rem space below
- "facebook" header: 2.5rem in height, 2.5rem left (inside), 0.625rem space below
- status update: 0.937rem space below
- like / comment / share links: font size 0.7rem, 0.625rem space below, 0.5 space between text and the line below (like only)
